# Product data sheet Characteristics

## 9016GAW1

Electromechanical vacuum switch, 9016G, adjustable scale, 2 thresholds, Set 0 to 28.3 InHg

#### Main

| Range of product          | 9016G                           |
|---------------------------|---------------------------------|
| Product or component type | Electromechanical vacuum switch |
| Device application        | Sensitive control application   |
| Device short name         | 9016G                           |
| Electrical circuit type   | Control circuit                 |
|                           |                                 |

#### Complementary

| Complementary                               |   |
|---|---|
| Factory modification                        | -   |
| Vacuum switch type of operation             | Regulation between two thresholds   |
| Scale type                                  | Adjustable differential   |
| Value of setting                            | -   |
| Vacuum sensor size                          | 28.7 inHg   |
| Range on decreasing vacuum                  | 028.7 inHg  |
| Approx adjustable differential at mid range | 1.37.4 inHg   |
| Maximum pressure                            | 100 psi   |
| Maximum permissible pressure - per cycle    | 689.5 kPa   |
| Local display                               | Without   |
| Fluid connection type                       | 0.25 inch 18 NPTF conforming to UL 508  |
| Electrical connection                       | Screw-clamp terminals AWG 22AWG 12  |
| Cable entry                                 | 0.5 inch NPT conduit entrance   |
| Terminal block type                         | 4 screw terminals   |
| Pressure actuator                           | Diaphragm nitrile (Buna-N)  |
| Controlled fluid                            | Air (-40250 °F) Water (-40250 °F) Hydraulic oil (-40250 °F) Gas (-40250 °F)   |
| Materials in contact with fluid             | Zinc plated steel<br>Nitrile (Buna-N)<br>3M Scotch-Grip 847 rubber and gasket adhesive  |
| Enclosure material                          | Die cast aluminium alloy 380  |
| Operating position                          | Any position  |
| Maximum operating rate                      | 120 cyc/mn  |
| Repeat accuracy                             | 0.4 %   |
| [In] rated current                          | 3 A 240 V AC A600 conforming to NEMA rating designation 6 A 120 V AC A600 conforming to NEMA rating designation 0.27 A 250 V DC R300 conforming to NEMA rating designation 0.22 A 125 V DC R300 conforming to NEMA rating designation |
| Local signalling                            | Without:  |
| Contacts type and composition               | NC-NO, SPDT, Form Z, snap action, silver nickel contacts  |
| Short-circuit protection                    | 10 A cartridge overload and short-circuit protection, type gL   |
| Mechanical durability                       | 5000000 cycles  |
| Setting                                     | Internal  |
| Net weight                                  | 2.09 kg   |
|   |   |

The information provided in this documentation contains general descriptions and/or technical characteristics of the performance of the principle in the properties of the performance of the prometation is not intended as a substitute for and is not to be used for determining sustability or relability of these products for spit is the duty of any such user or integrator to perform the appropriate and complete risk analysis, evaluation and testing of the products veit the three products with the product of the products when the product is a failured to result of the products when the product is a considered to the product of the products of the products of the products when the product is the duty of the product is a product of the p
